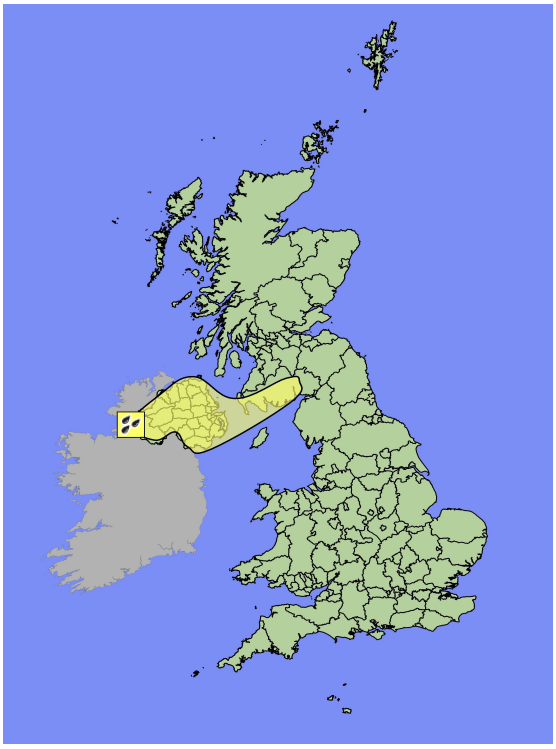
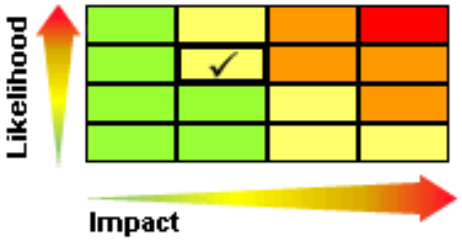
National Severe Weather Warning Service





Chief Forecasters Assessment
A frontal system will bring widespread 10 to 20 mm of rain, with locally up to 40 mm.

With increased holiday traffic and outdoor activities, a few issues may crop up, mainly relating to travel. However it may be noted that the more persistent rain has already cleared through Northern Ireland.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **18:00 on Tue, 31st Jul 2012** until **15:00 on Wed, 01st Aug 2012**

Areas of rain or showers will continue to affect parts of Northern Ireland and particularly southwest Scotland until Wednesday afternoon, the rain heavy at times.

The public should be aware that this may cause tricky travel conditions in places.
